

WEB DESIGN UPDATE:

Guidelines for the National Competition is followed as closely as possible.

1. Students must bring their own computers with wireless connection. If this is not possible, there will be computers accessible to reach the Internet by way of pen drives.
2. Bring legal documentation of all the software that will be used in the contest (copies will be fine).
3. Software can be provided for FTP access to a web server.
4. Web Design validation is important to know as well as how to upload to a web server. Documentation to attach to the web server in the lab will be provided.
4. No documentation (books, hand written or on paper,) except the help in the software will be allowed.
5. Understanding validation is important.
6. Bring a pen drive for transferring information or have the computers networked together.
